## Chimney Brushes

**RUTLAND**®

2025-2026

Fires are great when they're blazing away in stoves and fireplaces. But if there's a fire roaring up your chimney, you have a real problem. Surprisingly, 8% of all home fires start in the chimney. Talk to people who have had chimney fires and they will tell you about the telltale "freight train" inside the wall - the ominous sound of burning creosote.

Creosote is the highly combustible tarry residue that collects on chimney walls. The more softwood you burn or the "cooler" the fire, the more buildup you get. The best way to prevent chimney fires is to reduce creosote buildup. Using a creosote fighter on a regular basis is a good first step and is quick and easy to do. But there is no alternative for a thorough chimney cleaning- and for that you need a good chimney brush.

Rutland has chimney brushes for every shape and size flue. Extensions allow you to reach from rooftop to cellar cleanout where you may be amazed at the pile of creosote that's been scrubbed off by the brush's stiff bristles.

### Pellet Stove Brushes

greenfan™

A customer walks into your store and says that the blower in their (insert brand here) gas fireplace just went out. This is no problem if they bought their fireplace from you-just pull a replacement blower off your back shelf. But what do you do if they have a brand you don't carry or their fireplace is more than 10 years old? Greenfan has the answer for you and your customer.

With just 5 Greenfan replacement blowers on the shelf you can replace blowers on all these brands: *Enviro, Heat-n-Glo, Heatilator, Lennox, Regency, Napoleon, QuadraFire, Archgard, Empire and Continental.* They also have blowers available for Majestic and Monessen fireplaces as well! Instead of having to make a weeks worth of calls to find an outdated fan kit to pull a blower from, why not have the Greenfan on the shelf and have your customer on their way in less than 5 minutes?
